

ZHASSULAN SERIKULY

Senior Frontend Engineer

zhassulan.serikuly@gmail.com | +7 (775) 976-41-65 | Almaty, Kazakhstan

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Senior Frontend Engineer with 5+ years of commercial experience building and maintaining production web applications, geoportals, e-commerce and booking platforms. Strongly specialized in Vue.js, Nuxt.js and TypeScript, with additional experience in React/Next.js and backend development with Django and PostgreSQL.

Experienced in owning frontend delivery from requirements to production, designing reusable UI architecture, integrating complex REST APIs and geospatial data, and making technical implementation decisions. Led a 5-person development team, conducting code reviews, mentoring engineers, decomposing requirements and coordinating delivery.

SKILLS

Frontend: Vue.js, Nuxt.js, TypeScript, JavaScript, Pinia, Vuex, HTML5, CSS3, SCSS/Sass

Additional: React, Next.js, Redux, Tailwind CSS, Bootstrap

Backend & APIs: Python, Django, REST APIs, Postman

Databases: PostgreSQL, MySQL, Oracle PL/SQL

Tools & Practices: Git, Docker, ESLint, Figma, Jira, Scrum

EXPERIENCE

Key Horse [Recommendation letter](#)

Jun 2022 – Aug 2026

Senior Full-Stack Developer / Frontend Team Lead | Almaty, Kazakhstan

- **Led frontend development** within a **5-person engineering team**, coordinating delivery, decomposing requirements, assigning tasks, reviewing code, mentoring four junior developers, and providing technical guidance.
- **Took ownership of 4 regional geoportals from initial implementation to production** for Ulytau, Kyzylorda, Kostanay and Turkistan, delivering initial versions within 2–3 month development cycles and continuing post-launch feature development.
- Developed and **maintained 50+ production geoportals and digital twin solutions** for cities and regions across Kazakhstan using Vue.js, Mapbox, Django REST Framework and PostgreSQL.
- Designed and **implemented complex reusable Mapbox-based interfaces** for visualization and interaction with large geospatial and municipal datasets, integrating REST APIs and Django/PostgreSQL services for data-intensive functionality.
- **Optimized search and filtering across data-heavy geospatial catalogs** containing hundreds of thousands of map objects, improving lookup efficiency and UI responsiveness through more efficient frontend data traversal.
- **Introduced shared frontend coding standards and BEM methodology**, trained developers on the new conventions, and drove team-wide adoption, improving consistency and maintainability across a previously fragmented codebase.

A-Lux

Mar 2022 – Aug 2022

Frontend Developer | Almaty, Kazakhstan

- Developed and maintained frontend functionality across **multiple commercial projects using Vue.js and Nuxt.js**, including **e-commerce, food delivery, healthcare, and corporate web platforms**.
- Contributed extensively to Tez Zhet, a Nuxt.js food-delivery platform, implementing restaurant and menu **catalog, search and filtering, cart, checkout, authentication, delivery addresses, maps, payment flows and order history**.
- Collaborated within a **30+ person engineering organization** alongside frontend and backend teams, contributing to shared production codebases and coordinated releases.
- **Resolved complex frontend issues** and helped unblock development and delivery across multiple ongoing projects.

Athena Plus [Recommendation letter](#)

Jun 2021 – May 2022

Frontend Developer | Almaty, Kazakhstan

- **Owned frontend delivery as the primary frontend engineer** in a 6–7 person cross-functional team, collaborating directly with product/project manager, backend engineer, designer to deliver client projects from concept to production.
- **Independently architected and delivered multiple commercial applications** using React, Next.js, and Redux across e-commerce, travel, retail, hospitality, logistics and healthcare.
- Built **reusable catalog, search, filtering, sorting and navigation functionality** across multiple projects.
- Developed the frontend of Qazbooking.kz, an accommodation booking platform, implementing **authentication, accommodation search, and booking flows**.

LLC «Kaskhim» [Reference Letter](#)

Jan 2021 – Mar 2021

Software Engineer Intern | Atyrau, Kazakhstan

- **Implemented UI improvements and missing functionality** using JavaScript, HTML, and CSS, resolving layout, usability, and cross-page consistency issues.
- **Debugged and tested the existing codebase**, identifying frontend issues and delivering fixes and incremental improvements.
