SUMMARY

Senior Frontend Engineer with 5+ years of commercial experience, specializing in Vue.js, Nuxt.js, and TypeScript, with strong expertise in frontend architecture and performance optimization. Experienced in technical leadership, mentoring, and building scalable production applications across e-commerce, booking, and data-intensive platforms. Looking to bring this expertise to a product-focused international engineering team.

AREAS OF EXPERTISE

Frontend: Vue.js (2/3), Nuxt.js, TypeScript, JavaScript, Pinia, Vuex, SCSS/Sass

Additional: React, Next.js, Redux, Tailwind CSS

Mobile & PWA: Ionic, Capacitor, PWA

Architecture & UI: SSR, Component-Based Architecture, Design Systems, Responsive UI, Accessibility (WCAG), BEM

Performance: Core Web Vitals (LCP, INP, CLS), Code Splitting, Lazy Loading, Tree Shaking, Bundle Optimization, SEO

Testing: Jest, Playwright

Backend & APIs: Python, Django REST Framework, REST APIs, WebSockets

Databases: PostgreSQL, MySQL, Oracle PL/SQL

Tools & Practices: Vite, Git, Docker, CI/CD, ESLint, Figma, Jira, Agile/Scrum

Languages: English – B2 | Kazakh – Native | Russian – Fluent | Turkish – B2 | Chinese – A2

PROFESSIONAL EXPERIENCE

Key Horse [Recommendation letter](#)

Jun 2022 – Aug 2026

Senior Full-Stack Developer / Frontend Team Lead | Almaty, Kazakhstan

- **Team Leadership:** Led frontend development within an 8-person engineering team, coordinating delivery, decomposing requirements, assigning tasks, reviewing code, mentoring junior developers, and providing technical guidance.
- **Large-Scale Platforms:** Developed and maintained 50+ production geoportals and digital-twin solutions used by government and municipal organizations across Kazakhstan for city monitoring and data-driven decision-making, building reusable interfaces with Vue.js and Mapbox for complex geospatial data.
- **Product Ownership:** Owned frontend development for 4 regional geoportals from architecture and initial implementation through production launch and continued feature development.
- **Performance Optimization:** Optimized search and filtering across geospatial datasets containing hundreds of thousands of objects, improving lookup efficiency and UI responsiveness through more efficient data-processing algorithms.
- **Engineering Standards:** Introduced BEM methodology and shared frontend coding standards, trained developers on the new conventions, and drove team-wide adoption, improving consistency and maintainability across the codebase.
- **Backend & API Development:** Designed and maintained REST APIs and backend services with Python, Django REST Framework, and PostgreSQL, implementing endpoints, data processing, and database integrations for data-intensive geoportals.

A-Lux

Dec 2021 – May 2022

Frontend Developer | Almaty, Kazakhstan

- **Cross-Team Delivery:** Worked within a 30+ person engineering organization, collaborating with frontend and backend teams on shared codebases and coordinated releases.
- **SSR & Performance:** Delivered production Vue.js and Nuxt.js solutions across multiple client projects, implementing SSR and optimizing technical SEO and Core Web Vitals (LCP, INP, CLS) to improve page performance, search visibility, and overall user experience.
- **Large-Scale Platform:** Led frontend development of a major city-wide Nuxt.js food delivery platform, building the complete customer journey from restaurant discovery and search to checkout, payments, delivery, and order tracking.

Athena Plus [Recommendation letter](#)

Jun 2021 – Feb 2022

Frontend Developer (Part-time) | Almaty, Kazakhstan

- **Frontend Ownership:** Served as the primary frontend engineer in a 6–7 person cross-functional team, owning client projects from technical implementation through production.
- **Multi-Stack Development:** Architected commercial applications with Vue.js and React, leveraging Nuxt.js and Next.js for SSR to improve performance and scalability across multiple business domains.
- **Reusable Architecture:** Developed reusable catalog, search, filtering, sorting, and navigation functionality across multiple production projects.
- **Booking Platform:** Built a large-scale accommodation booking platform, implementing authentication, property discovery, search and filtering, and end-to-end booking flows.

EDUCATION

Suleyman Demirel University (SDU) | 2019–2023 | Almaty, Kazakhstan

Bachelor of Information Systems
